LIBRARY OF THE TECHNICAL UNIVERSITY OF LIBEREC

knihovna.tul.cz

WHY TO THE LIBRARY

The University Library is the biggest specialized library in Liberec focused on technical disciplines, economy, pedagogy, mechatronics, textile, health care, architecture and art.

It provides a wide range of services for its users; including Interlibrary loans, information retrieval and digitization. The Library also provides the access to renowned databases like Web of Science, Scopus etc.

In its premises the Library offers ca. 500 places for study, a relaxing zone, four sections of foreign language books and a quiet reading room.

The Library publishes a bulletin UNIKNI TUL.
