„SEPARACE – variabilní bytový textil“ je práce, která obsahuje soubor polštářů různých tvarů a rozměrů. Zabývá se prostředím relaxace i prostředím vhodným pro různé druhy činností. Řeší variabilitu a přizpůsobivost jednotlivých spojovacích polštářů vůči požadavkům člověka. Jednotlivé polštáře mají v každém bočním švu všité speciální oboustranné zdrhovadlo, které umožňuje nespočet možností, jak subjekty uspořádat a napojit.
