

Assessment proposed by the supervisor: **Excellent**
Assessment proposed by the reviewer: **Very Good**

Course of the defence:

Comment of the external examiner

Since the focus is on emerging markets new production plants for US or Europe (such as new plants for TESLA) are not deeply analyzed. It is not fully clear if the same analysis can be conducted not only for Vietnam or India but for a country in the EU as well.

Questions of the supervisor – Dyntar

From the PEST analysis point of view, is the market in Vietnam somehow different from China?

Answered

Was some kind of cost analysis carried out for a certain flow of (semi)products and a proposed supply chain?

Answered

Brabec

Are the suggested alternative travel routes over Russia still available?

Answered

Eckert

Did you mean transporting components or cars in your diploma thesis?

Answered

Vávrová

Did you consider environmental borders for your proposals and how?

Answered

Hovorková Valentová

What was the interview with employees mentioned in the comments about methodology in your diploma thesis about?

Answered
