Basel, 24 July 2019

Invitation to Join the MDPI Institutional Open Access Program

We invite the Technical University of Liberec to our institutional open access program (IOAP):

Initial term from 1 August 2019 to 31 July 2020

No annual fee (free of charge)

Authors associated with the university will receive a 10% discount on the Article Processing Charges (APC) during the term

The institution is granted free access to the MDPI submission system (see page 2 for details) and can receive free alerts of new submissions to our journals

By default, authors from the institution will continue to be invoiced directly unless the institution opts for central billing (see page 3 for details)

APCs apply for accepted articles only and vary between 300 CHF and 2000 CHF depending on the journal's APC. The average APC invoice in 2018 was approximately 1400 CHF, respectively 1200 EUR (excluding waived papers.)

For further information on APCs, please see <http://www.mdpi.com/about/apc>. The program also grants authors a reduction on the Book Processing Charges (BPCs) for MDPI Books (<http://www.mdpi.com/books>).

Thank you for your cooperation and support of open access.

Best regards,

A handwritten signature in black ink, appearing to read 'A. Freeland', written in a cursive style.

Access to the MDPI Submission System (“SuSy”)

As part of the program, we offer institutions free access to our submission system. This allows for central control over papers submitted to our journals. Information on authors, co-authors, submission dates, titles, current status, article processing information, and more, can be viewed. The initial version of each paper submitted to the journal will be accessible and all relevant data can be exported as an Excel-readable CSV file.

Our aim is to provide transparency with respect to papers submitted to our journals and to allow for an early notification of possible APCs.

IOAP View in „SuSy“

The screenshot shows the MDPI submission system interface. At the top, there is a navigation bar with links for MDPI, Journals A-Z, Information & Guidelines, About, Editorial Process, My Profile, Logout, and Submit. Below the navigation bar, there is a search area with filters for Manuscript ID, Manuscript Title, Category (All, Under Processing, Published), Submission date (From, To), and Associate Authors (All, Corresponding Only). A search button is visible.

On the left side, there is a User Menu with options like User Profile, Manage E-Mail Alerts, Manage E-Mail Newsletters, Manage Saved Searches, Change Password, Edit Profile, and Logout. Below that, there is an IOAP Participant View section with options like Overview of Articles, Manage Your Automated E-Mail Alerts, Affiliated Editors, and Articles Published.

The main content area shows a list of papers published in 2010. The list includes columns for Manuscript ID, Authors, Journal, Title, Status, Sub. Date, and Notes. The papers listed are:

Manuscript ID	Authors	Journal	Title	Status	Sub. Date	Notes
molecules-209906	Charles Okeke Nnadi, Ngozi Justina Nwodo, Marcel Kaiser, Reto Brun	Molecules	Steroid Alkaloids from <i>Holarhena africana</i> with strong activity against <i>Trypanosoma brucei rhodesense</i>	Website online	28/6/17	
arts-209823	Zejan Zhang	Arts	test	Form not completed	28/6/17	
genes-209680	Jens Treutlein, Josef Frank, Fabian Streit, Céline S. Reinbold	Genes	Genetic Contribution to Alcohol Dependence: Investigation of a Heterogeneous German Sample of Individuals with Alcohol Dependence, Chronic Alcoholic Pancreatitis and Alcohol-related Cirrhosis	English correction done	27/6/17	
atmosphere-208126	Ivan Coluzza, Jessie Creamean, Michel Rossi, Heike Wex	Atmosphere	Perspectives on the Future of Ice Nucleation Research: Research Needs and Unanswered Questions Identified from Two International Workshops	Pending minor revisions	20/6/17	
mannedugs-207841	Vangelis Smyrniotopoulos, Christian Merten, Marcel Kaiser, Deniz Tasdemir	Manne Drugs	Bifurcatriol: an Antiprotozoal Acyclic Diterpene from the Brown Alga <i>Bifurcaria bifurcata</i>	Pending minor revisions	19/6/17

Internal Repository Deposits from MDPI

Internal repositories compliant with SWORD 1.3 will be able to receive auto-archiving of journal articles written by any leading author or co-author from your institution. Articles will be deposited on the issue release date of each MDPI journal. To enable the auto-archiving function from MDPI, please provide the following:

Host address: 2
Username: _____
Password: _____
